

Custom Lighting

Luxury Decor welcomes custom lighting design for residential and commercial buildings. We offer luxury lighting from Bohemian crystal chandeliers to fashion interior lighting. All lighting fixtures will be produced using high quality material.

We work closely with the Czech factory, Titania Lux, and designers who have great interior design experience. They are highly flexible in their production approach which permits endless possibilities in ideas, scale and style.

We supply fixtures suitable for the smallest spaces right up to big commercial spaces.

We can start from an existing design; then we can alter trimming, color, crystal type, sizing and length to meet any client's requirement.

Interested?

Send us an email to info@luxury-decor.ca with your unique ideas and we can start working with you today!
